Marriage and foreign themes	9
Property and inheritance	10
Vehicles and gains	11
Astrological vitality cautions	12
MD-AD timeline	13
Sources, limits and terminology	14

Evaluation order

1. D1 establishes natal promise and carries the highest interpretive priority.
2. Functional lordship, dignity, dispositors, aspects, conjunctions and configured yogas modify delivery.
3. The topic-specific divisional chart confirms; it does not manufacture an absent D1 promise.
4. BAV/SAV describes support for manifestation and timing context, never a verdict by itself.
5. MD is the environment and AD is the executor. Their ownership, placement, relationship and repetitions define timing themes.
6. D60 is a fine confirmation layer only when birth time is sufficiently accurate.

Exact degrees and Panchanga

Body	Sidereal position	Longitude	Motion	Nakshatra
Sun	08°28'37" Leo	128.47699511°	Direct	Magha P3
Moon	16°50'55" Cancer	106.84874996°	Direct	Ashlesha P1
Mars	11°50'43" Aquarius	311.84525628°	Retrograde	Shatabhisha P2
Mercury	02°07'00" Virgo	152.11653530°	Direct	Uttara Phalguni P2
Jupiter	05°47'43" Leo	125.79528886°	Direct	Magha P2
Venus	10°28'20" Leo	130.47222779°	Direct	Magha P4
Saturn	16°09'24" Gemini	76.15669759°	Direct	Ardra P3
Rahu	00°34'29" Taurus	30.57470105°	Mean node	Krittika P2
Ketu	00°34'29" Scorpio	210.57470105°	Mean node	Vishakha P4

Overall natal promises

Structural picture: Good

7 Good | 3 Moderate | 0 Low domains

Domain	Varga	Promise	Evidence layers
Overview	D1	**Good**	d1:Good | varga:Good | ashtakavarga:Good | structure:Good
Money	D2	**Good**	d1:Good | varga:Good | ashtakavarga:Moderate | structure:Good
Career	D10	**Good**	d1:Good | varga:Moderate | ashtakavarga:Moderate | structure:Good
Fame & authority	D5	**Good**	d1:Good | varga:Good | ashtakavarga:Good | structure:Good
Marriage	D9	**Good**	d1:Good | varga:Moderate | ashtakavarga:Low | structure:Moderate
Foreign	D4	**Moderate**	d1:Good | varga:Moderate | ashtakavarga:Low | structure:Low
Inheritance	D4	**Moderate**	d1:Moderate | varga:Good | ashtakavarga:Moderate | structure:Good
Property	D4	**Moderate**	d1:Good | varga:Moderate | ashtakavarga:Moderate | structure:Moderate
Vehicles	D16	**Good**	d1:Good | varga:Moderate | ashtakavarga:Good | structure:Moderate
Gains	D11	**Good**	d1:Good | varga:Moderate | ashtakavarga:Good | structure:Good

The chart in ordinary language

The clearest configured promises are Overview, Money, Career, Fame & authority. These deserve positive language because multiple independent layers support them, but they are still capacities rather than guaranteed events.

Strongest topics: Overview, Money, Career, Fame & authority, Marriage, Vehicles, Gains.

No domain is marked Low, but every Good result still needs practical judgment.

Money and career

Money

D2 | Good

Money: a genuine strength, not a guarantee

This is one of the chart's clearer practical capacities: earning, organizing and growing resources has repeated support. The label describes astrological support, not certainty or event probability.

D1 structural promise	**Good**
D2 method-specific confirmation	**Good**
Ashtakavarga support	**Moderate**
Lords, dignity & yogas	**Good**
Current MD-AD axis and activation	**Good**

In ordinary life, this concerns earning and keeping money. The most constructive expression is steady, ethical development rather than waiting for one dramatic event.

BEST EVIDENCE AND CAUTION

Topic-house SAV averages 29.5. Chart average is 28.1. SAV confirms environmental support; it does not replace lordship.

Moon adds delivery friction. House 12 lord is placed in D1 house 12; this is a modifier, not denial.

Career

D10 | Good

Career: a genuine strength, not a guarantee

The professional engine is genuinely supported: responsibility, skill and visible output can compound into status. The label describes astrological support, not certainty or event probability.

D1 structural promise	**Good**
D10 method-specific confirmation	**Moderate**
Ashtakavarga support	**Moderate**
Lords, dignity & yogas	**Good**
Current MD-AD axis and activation	**Good**

In ordinary life, this concerns work and professional standing. The most constructive expression is steady, ethical development rather than waiting for one dramatic event.

BEST EVIDENCE AND CAUTION

Topic-house SAV averages 30.5. Chart average is 28.1. SAV confirms environmental support; it does not replace lordship.

No single caution should be isolated; check the full structure and real-life facts.

Money prioritizes the D1 H2/H11 carrier and Hora suitability. Career prioritizes D1 work/status structure and D10 Lagna, H6, H9, H10 and H11.

Marriage and foreign themes

Marriage

D9 | Good

Marriage: a genuine strength, not a guarantee

There is a workable partnership promise with enough support for commitment and growth when both people participate maturely. The label describes astrological support, not certainty or event probability.

D1 structural promise	**Good**
D9 method-specific confirmation	**Moderate**
Ashtakavarga support	**Low**
Lords, dignity & yogas	**Moderate**
Current MD-AD axis and activation	**Good**

In ordinary life, this concerns partnership and marriage. The most constructive expression is steady, ethical development rather than waiting for one dramatic event.

BEST EVIDENCE AND CAUTION

D1 house 1 is occupied. Sun, Jupiter, Venus, Asc

Topic-house SAV averages 26.3. Chart average is 28.1. SAV confirms environmental support; it does not replace lordship.

Foreign

D4 | Moderate

Foreign: useful potential with conditions

Foreign links are possible, but movement, professional benefit and stable settlement do not all carry the same strength. The label describes astrological support, not certainty or event probability.

D1 structural promise	**Good**
D4 method-specific confirmation	**Moderate**
Ashtakavarga support	**Low**
Lords, dignity & yogas	**Low**
Current MD-AD axis and activation	**Moderate**

In ordinary life, this concerns foreign travel, work or settlement. The most constructive expression is steady, ethical development rather than waiting for one dramatic event.

BEST EVIDENCE AND CAUTION

Movement is good while a durable foreign base is moderate; these are deliberately not merged into one claim.

Travel, employment abroad and permanent settlement are different outcomes. Visa rules, finances, health, family and actual opportunities remain decisive.

Property and inheritance

Property

D4 | Good

Property: a genuine strength, not a guarantee

Property and residence are constructive life themes, with repeated support for building a tangible base over time. The label describes astrological support, not certainty or event probability.

D1 structural promise	**Good**
D4 method-specific confirmation	**Moderate**
Ashtakavarga support	**Moderate**
Lords, dignity & yogas	**Moderate**
Current MD-AD axis and activation	**Good**

In ordinary life, this concerns property and residence. The most constructive expression is steady, ethical development rather than waiting for one dramatic event.

BEST EVIDENCE AND CAUTION

Topic-house SAV averages 28.8. Chart average is 28.1. SAV confirms environmental support; it does not replace lordship.

Moon adds delivery friction. House 12 lord is placed in D1 house 12; this is a modifier, not denial.

Inheritance

D4 | Moderate

Inheritance: useful potential with conditions

An inheritance or family-asset channel exists, but amount, source, timing and ease are conditional and should not be exaggerated. The label describes astrological support, not certainty or event probability.

D1 structural promise	**Moderate**
D4 method-specific confirmation	**Good**
Ashtakavarga support	**Moderate**
Lords, dignity & yogas	**Good**
Current MD-AD axis and activation	**Good**

This can show as family property, shared capital, a business mantle or support arriving through relatives; it does not by itself describe the amount or prove that a transfer will occur.

BEST EVIDENCE AND CAUTION

The clearest configured asset route is cash / liquid wealth (Good). Receipt is Good and retention is Good.

Dispute or delivery friction is moderate. A chart cannot establish ownership, entitlement or legal outcome.

Inheritance separates promise, source, asset type, receipt, retention and dispute. A chart never establishes legal ownership or entitlement.

Vehicles and gains

Vehicles

D16 | Good

Vehicles: a genuine strength, not a guarantee

The chart can support useful comforts and conveyances when purchases remain proportionate and practical. The label describes astrological support, not certainty or event probability.

D1 structural promise	**Good**
D16 method-specific confirmation	**Moderate**
Ashtakavarga support	**Good**
Lords, dignity & yogas	**Moderate**
Current MD-AD axis and activation	**Good**

In ordinary life, this concerns vehicles and material comforts. The most constructive expression is steady, ethical development rather than waiting for one dramatic event.

BEST EVIDENCE AND CAUTION

Topic-house SAV averages 31.0. Chart average is 28.1. SAV confirms environmental support; it does not replace lordship.

No single caution should be isolated; check the full structure and real-life facts.

Gains

D11 | Good

Gains: a genuine strength, not a guarantee

The chart has a credible ability to convert effort and connections into gains, especially when the underlying work is strong. The label describes astrological support, not certainty or event probability.

D1 structural promise	**Good**
D11 method-specific confirmation	**Moderate**
Ashtakavarga support	**Good**
Lords, dignity & yogas	**Good**
Current MD-AD axis and activation	**Good**

In ordinary life, this concerns gains, networks and fulfillment. The most constructive expression is steady, ethical development rather than waiting for one dramatic event.

BEST EVIDENCE AND CAUTION

Topic-house SAV averages 33.7. Chart average is 28.1. SAV confirms environmental support; it does not replace lordship.

No single caution should be isolated; check the full structure and real-life facts.

Astrological vitality cautions

This page only summarizes traditional chart symbolism for vitality, strain and recovery themes. It cannot assess illness, diagnose a condition, estimate lifespan or replace a qualified clinician.

House	Sign	Lord	Lord placement	Dignity	Occupants	SAV
H1	Leo	**Sun**	H1 Leo	Moolatrikona	Sun, Jupiter, Venus, Asc	26
H6	Capricorn	**Saturn**	H11 Gemini	Other sign	None	31
H8	Pisces	**Jupiter**	H1 Leo	Other sign	None	27
H12	Cancer	**Moon**	H12 Cancer	Own sign	Moon	23

Contextual indicators

Sun: Leo, H1, Moolatrikona. Moon: Cancer, H12, Own sign.

H1 describes constitutional presentation; H6 relates to strain and routines; H8 to vulnerability and transformation; H12 to rest, withdrawal and expenditure. None is judged in isolation.

Combustion, retrogression, nodes or low SAV are modifiers only. Benefic support, dispositors, house ownership, upachaya placement, cancellation and repeated Varga evidence must be considered together.

IMPORTANT: If you have a health concern, seek evidence-based medical care. This report intentionally makes no diagnosis, treatment recommendation or longevity claim.

CURRENT AND NEXT THREE WINDOWS

MD-AD timeline

Ketu to Venus: a change of operating style

This is better read as clearing followed by construction, not destruction followed by a miracle. Ketu works through Mars and Jupiter; Venus then develops its own D1 houses and repeated Varga themes. Venus is in a Ketu-ruled nakshatra, so the next chapter carries forward unfinished material from the Ketu period instead of beginning from zero. Venus can build relationships, comforts, agreements, art or material value, but only through its actual D1 ownership, placement and controllers in this chart. In D1, Venus occupies H1 Leo and owns H3 and H10. Its best results come through the repeated strengths shown below; its label is comparative, not a promise that every subperiod will be easy.

CURRENT PERIOD

Ketu-Mercury | Good

2026-06-04 to 2027-06-02 | Effort to gain

MD-AD axis 3/11 (Effort-to-gain axis) controls 65% of the timing grade; topic activation controls 35%. The period lords form a 3-11 relationship, favouring results through effort, initiative, networks and fulfilment. Ketu sets the period environment and Mercury executes it. Direct D1 load: Ketu occupies H4; Mercury occupies H2 and owns H2/H11. Node delivery is routed through Ketu: Mars (sign) and Jupiter (nakshatra). Career is the strongest specialist-chart activation (D10); its house SAV is supportive. 1 of the 2 period lords occupy benefic D60 amshas.

NEXT WINDOW 1

Venus-Venus | Good

2027-06-02 to 2030-10-01 | Concentrated

MD-AD axis 1/1 (Concentrated agenda) controls 65% of the timing grade; topic activation controls 35%. The period lords occupy the same house, concentrating delivery; conjunction quality and the shared house still modify the outcome. Venus sets the period environment and Venus executes it. Direct D1 load: Venus occupies H1 and owns H3/H10; Venus occupies H1 and owns H3/H10. Overview is the strongest specialist-chart activation (D1); its house SAV is supportive. 2 of the 2 period lords occupy benefic D60 amshas.

NEXT WINDOW 2

Venus-Sun | Good

2030-10-01 to 2031-10-01 | Concentrated

MD-AD axis 1/1 (Concentrated agenda) controls 65% of the timing grade; topic activation controls 35%. The period lords occupy the same house, concentrating delivery; conjunction quality and the shared house still modify the outcome. Venus sets the period environment and Venus executes it. Direct D1 load: Venus occupies H1 and owns H3/H10; Sun occupies H1 and owns H1. Overview is the strongest specialist-chart activation (D1); its house SAV is supportive. 2 of the 2 period lords occupy benefic D60 amshas.

NEXT WINDOW 3

Venus-Moon | Moderate

2031-10-01 to 2033-06-01 | Transition / expenditure

MD-AD axis 2/12 (Loss / transition) controls 65% of the timing grade; topic activation controls 35%. The period lords occupy a 2-12 relationship. Expenditure, separation, transition or leakage can outweigh apparent strength unless the promised topic specifically requires those themes. The 2/12 rule caps this period at Moderate. Venus sets the period environment and Moon executes it. Direct D1 load: Venus occupies H1 and owns H3/H10; Moon occupies H12 and owns H12. Inheritance is the strongest specialist-chart activation (D4); its house SAV is supportive. 2 of the 2 period lords occupy benefic D60 amshas.

Comparative Mahadasha delivery

Sun (Good) | Mars (Good) | Jupiter (Good) | Moon (Moderate) | Mercury (Moderate)

MD-AD describes activation themes, not guaranteed events. Transits and Pratyantardasha are not calculated in this report.

Sources, limits and terminology

Calculated layers

Swiss Ephemeris positions; Lahiri sidereal zodiac; mean nodes; D1/D2/D3/D4/D5/D9/D10/D11/D12/D16/D24/D60; functional lordship; dignity; configured aspects and yogas; dispositors; BAV/SAV; Arudhas; node controllers; Vimshottari MD-AD; sunrise-derived Bhava, Hora and Ghati Lagnas; birth-time perturbation.

Source hierarchy

BPHS-derived lordship, dignity, Varga, special-Lagna and yoga framework, paraphrased operationally.

P. V. R. Narasimha Rao integrated Varga-reading approach: every divisional chart is judged through its own Lagna, houses and lords.

Supplied Master Rulebook and worked examples: evidence hierarchy, Ashtakavarga, Arudha, node-controller and timing synthesis.

Rahu-Ketu Experience by P. Trivedi: node-controller observations used only as tagged supporting interpretation.

Unavailable or intentionally excluded

Shadbala, Bhavabala, planetary war, live transits, Pratyantardasha, event calibration and medical/longevity prediction are not calculated. Evidence completeness is not event probability. D60 and sunrise-derived factors require an accurate birth time.

Labels

Good = stronger configured support. Moderate = mixed or conditional support. Low = limited configured support or substantial cautions. These are qualitative software labels, not promises, certainty, diagnosis or fate.

BETA HOBBY PROJECT. Read this report as an experimental astrology exercise only. Use considerate judgment and real-world evidence for every important decision.
